

What's the BRIGHT EXCHANGE?

The Bright Exchange is the name given to the local exchange trading scheme also known as LETS.

It is a localised network of people who trade skills, services and goods on a cashless basis. People's time is valued at an equal rate, be it walking someone's dog, giving a head massage or stripping wallpaper.

The health of the system depends on the frequency of trade and exchange amongst members. The more people trade, the more vibrant the system is. The scheme also allows for the loan of useful items. The Bright Exchange has been running successfully for the last 12 years.
