Introductory Letter (2)

Dear Member

Following the good response to our message just before Christmas, we can now proceed to the next stage, so that members can access the system.

You can set your own password, if you put the correct ID and email address into the page linked at the foot of this message. Please note that we have added a zero in the front of IDs to create a four-digit pin - thus ID 263 is now 0263. The Reset Password link triggers a Welcome email that contains your new password, which you can copy and paste to log in - if you want to change the password, it's the first item on the My Profile menu.

The next thing on the menu, via "Edit My Personal Information", is to put in your current address and postcode (your street address will not be visible to other members), and add a brief introduction about yourself in the About Me box. If you have a photo of yourself on your computer please do upload it. You can then update your Offers, and create one or more Wants.

There will be a brights bonus for everyone who has updated their profile, including a photo, by 7th January. If you've forgotten your ID, it will be listed on an old newsletter, or reply to this message and we will trigger the Welcome message.

With Very Best Wishes for a Happy New Year 2017
from your Core Group: Deborah, Pat, Suzi, Maggie (and Mary)
